

Notes from HTML Review

Hey Victoria!

I am uploading this as a placeholder, since we have already communicated our edits over email. But, as a recap:

1. Love the color scheme, and the gradient Nav bar is looking so good!
2. On the header of the page, the nav bar is kind of jumbled with the title, but I know you are working to make that responsive.
3. On the press page, the text is hugging the left side of the page, so let's bump up the margin
4. I love the typeface update, I think it's a LOT easier to read in main quotes.
5. Images are looking responsive, awesome job!

Thanks again for all the hard work! The site looks awesome!
